Summary

As a full-stack developer, I have extensive experience in building responsive websites and web applications using a range of technologies, including HTML, CSS, JavaScript, and frameworks such as React. On the back end, I have a strong background in languages such as Python and Node.js and am proficient in working with databases such as MySQL and MongoDB. I am deeply passionate about developing high-quality, scalable software and am constantly seeking opportunities to learn and improve my skills. I am known for my ability to find simple solutions to complex problems, and for my aptitude for learning new concepts quickly.
